

HPD UNIQUE IDENTIFIER: 24386

CLASSIFICATION: 09 29 00 Gypsum Board

PRODUCT DESCRIPTION: KNAUF ACUSTIK DI Knauf Acustik DI is a gypsum board with a control high weight per unit area and flexural ductility, and consists of a special gypsum core coated with light blue cardboard sheet. Knauf Acustik board is characterized by improving the acoustic performance of the system by up to +4 dBA, due to the perfect study of its density.

INVENTORY AND SCREENING NOTES:

This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.2 and discloses hazards associated with all substances present at or above 100 parts per million (ppm) in the finished compound product, along with the role and percent weight. This HPD is consistent with the LEED v4 MR credit Building Product Disclosure and Optimization: Material Ingredient Reporting. This HPD covers all manufacturing facilities for Knauf GmbH Sucursal España. The main raw material declared here comes from Knauf GmbH own quarries located in Guixers and Escuzar, so composition is highly known and tested constantly to comply with high standard environmental and air quality regulations.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

RESIDUALS AND IMPURITIES CONSIDERED: No

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities are considered and noted when the concentration is above the disclosure threshold. Naturally occurring impurities in the gypsum are evaluated when required, by the manufacturer through chemical analyses. No residuals or impurities were found in the product below declared.

This declaration refers to the functional unit as prescribed by the PCR. The functional unit is defined as 1 m2 of drywall for a service life of 50 years."			

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

KNAUF UNIK DRYWALL JOINT COMPUND	HPD URL: https://www.knauf.es/productos/pastas/pastas-juntas
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Knauf Unik drywall joint compound is compatible with all paper-faced gypsum panels.

Section 5: General Notes

The drywalls that are covered in this HPD are:

- Acustik 12,5 BA
- Acustik 15 BA

The composition for each Acustik variation is proportional to the size of the of drywall.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
