

HPD UNIQUE IDENTIFIER: 435696585728

CLASSIFICATION: 04 05 13 Masonry Mortaring

PRODUCT DESCRIPTION: PLANFIX-FINE is a polymer-modified, cement-based, extra fine-grained putty mortar, for indoor or outdoor application. With the addition of water, a paste of very good workability is formed, ideal for thin-layer applications (e.g. puttying). Because of its particle-size, it can also be applied with a gunite machine. It is classified as a PCC R2 type mortar, for concrete repairs, according to EN 1504-3.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard
