

HPD UNIQUE IDENTIFIER: 30946

CLASSIFICATION: 09 51 13 Acoustical Panel Ceilings

PRODUCT DESCRIPTION: SUPERCLUSTER panels are a floating ceiling cloud panel system. SUPERCLUSTER panels are a 360-degree finished panel system that can be produced in standard squares and rectangular or curved and shaped to your unique design needs. The SUPERCLUSTER MODIFIED is a version of the SUPERCLUSTER that is not finished on the back of the panel and can be a cost-effective way to get the floating cloud look. SUPERCLUSTER panels are available in sizes up to 48" x 96" (1219 mm x 2438 mm) and thickness up to 2"(51 mm). SUPERCLUSTER panels can be finished in our proprietary non bridging coating system in either standard "AURA WHITE" or a custom color.

Section 1: Summary

Nested Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format	Threshold Level	Residuals/Impurities Evaluation	For all contents above the threshold, the manufacturer has:
☐ Nested Materials Method	☐ 100 ppm	Completed in 7 of 7 Materials	Characterized ☒ Yes ☐ No
☐ Basic Method	☒ 1,000 ppm	Explanation(s) provided for Residuals/Impurities?	<i>Provided weight and role.</i>
Threshold Disclosed Per	☐ Per GHS SDS	☒ Yes ☐ No	Screened ☒ Yes ☐ No
☐ Material	☐ Other		<i>Provided screening results using HPDC-approved methods.</i>
☒ Product			Identified ☐ Yes ☒ No
			<i>Provided name and CAS RN or other identifier.</i>

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

This HPD has been prepared with the Nested Inventory Method with a product threshold of 1,000 ppm. Ranges are introduced to account for multiple panel thicknesses, alternate materials (type of fiberglass) and also, substance-wise, when multiple suppliers exist. All residuals and impurities present at or above 1,000 ppm in the product have been disclosed to the extent possible. Special Conditions materials are present in the product: polymers, metal alloy and minor fasteners. Some guidelines for reporting Special Conditions materials are still under development by HPDC; therefore Sky-Acoustics will update the HPD accordingly once these guidelines get published. Substances are not all identified as some are proprietary; hence, undisclosed.

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE *See Section 3 for additional listings.*

VOC emissions: CDPH Standard Method V1.2 (Section 01350/CHPS) - Classroom & Office scenario

EXPIRY DATE: 2025-12-24

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

FIBERGLASS CORE - ALTERNATIVE #1 %: 59.0000 - 65.0000

PRODUCT THRESHOLD: 1000 ppm RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes MATERIAL TYPE: Glass

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities were considered. Residues are below the reporting threshold, but have been reported. The manufacturers did not report any impurities.

OTHER MATERIAL NOTES: Two fiberglass core are available: Alternative #1 fiberglass with polymeric binder or Alternative #2 fiberglass with plant based binder. Weight percent interval is used to cover multiple panel thicknesses and protect product exact recipe.

FIBERGLASS ID: 65997-17-3

SUBSTANCE NOTES: Weight interval is used to cover product variability and to protect exact product recipe.

ADHESIVE	%: 12.0000 - 18.0000	
PRODUCT THRESHOLD: 1000 ppm	RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes	MATERIAL TYPE: Polymeric Material

RESIDUALS AND IMPURITIES NOTES: There are no residuals or impurities at or above the declaration threshold.

OTHER MATERIAL NOTES: Weight interval is used to cover multiple panel thicknesses and protect product exact recipe. It should be noted that the composition of this product represents the unreacted product; hence, the hazard listing of the final product will differ.

Section 3: Certifications and Compliance

This section lists applicable certification and standards compliance information for VOC emissions and VOC content. Other types of health or environmental performance testing or certifications completed for the product may be provided.

VOC EMISSIONS		CDPH Standard Method V1.2 (Section 01350/CHPS) - Classroom & Office scenario
CERTIFYING PARTY: Third Party	ISSUE DATE: 2021-11-02	CERTIFIER OR LAB: Materials
APPLICABLE FACILITIES: All.	EXPIRY DATE:	Analytical Services, LLC
CERTIFICATE URL:		
CERTIFICATION AND COMPLIANCE NOTES: The product used as wall or ceiling panel is CDPH compliant for both classroom and private office settings. The estimated range of total VOCs after 14 days (336 hours) is 0.5 mg/m3 or less. The MAS Assigned ID: 2100752.		

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

CEILING MOUNT MANUFACTURER (OR GENERIC): Sky-Acoustics
HPD URL: No HPD Available ACCESSORY TYPE: Installation Accessory CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Accessories required to mount the panels to the ceiling. Sky-Acoustics offers a variety of ceiling mounts: Cumulus Grid System (Suspension system is custom engineered and manufactured for each specific project. Panels are assembled in groups prior to being lifted into place). See Sky-Acoustics' website for more details.
ANCHOR SPRINGS MANUFACTURER (OR GENERIC): Sky-Acoustics
HPD URL: No HPD Available ACCESSORY TYPE: Installation Accessory CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Anchor Springs are required to suspend the Superclusters individually. Anchor springs are mounted the back of the panel and clipped to an adjustable hanger hook with aircraft cable. See Sky-Acoustics' website for more details.

Section 5: General Notes

Panels can also be classified under the MasterFormat 09-51-23 - Acoustical Tile Ceilings.

MANUFACTURER INFORMATION

MANUFACTURER: Sky Acoustics
ADDRESS: 55 Bradwick Drive
 Concord Ontario L4K 1K5, Canada
WEBSITE: www.sky-acoustics.com

CONTACT NAME: Ryan Phillips
TITLE: National Sales Manager
PHONE: 647-477-2200
EMAIL: ryan.phillips@sky-acoustics.com

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

KEY

Hazard Types

AQU Aquatic toxicity	LAN Land toxicity	PHY Physical hazard (flammable or reactive)
CAN Cancer	MAM Mammalian/systemic/organ toxicity	REP Reproductive
DEV Developmental toxicity	MUL Multiple	RES Respiratory sensitization
END Endocrine activity	NEU Neurotoxicity	SKI Skin sensitization/irritation/corrosivity
EYE Eye irritation/corrosivity	NF Not found on Priority Hazard Lists	UNK Unknown
GEN Gene mutation	OZO Ozone depletion	
GLO Global warming	PBT Persistent, bioaccumulative, and toxic	

GreenScreen (GS)

BM-4 Benchmark 4 (prefer-safer chemical)	LT-P1 List Translator Possible 1 (Possible Benchmark-1)
BM-3 Benchmark 3 (use but still opportunity for improvement)	LT-1 List Translator 1 (Likely Benchmark-1)
BM-2 Benchmark 2 (use but search for safer substitutes)	LT-UNK List Translator Benchmark Unknown
BM-1 Benchmark 1 (avoid - chemical of high concern)	NoGS No GreenScreen.
BM-U Benchmark Unspecified (due to insufficient data)	

GreenScreen Benchmark scores sometimes also carry subscripts, which provide more context for how the score was determined. These are DG (data gap), TP (transformation product), and CoHC (chemical of high concern). For more information, see 2.2.2.4 GreenScreen® for Safer Chemicals, www.greenscreenchemicals.org, and Best Practices for Hazard Screening on the HPDC website (hpd-collaborative.org).

Recycled Types

PreC Pre-consumer recycled content
PostC Post-consumer recycled content
UNK Inclusion of recycled content is unknown
None Does not include recycled content

Other Terms:

GHS SDS Globally Harmonized System of Classification and Labeling of Chemicals Safety Data Sheet

Inventory Methods:

Nested Method / Material Threshold Substances listed within each material per threshold indicated per material
Nested Method / Product Threshold Substances listed within each material per threshold indicated per product
Basic Method / Product Threshold Substances listed individually per threshold indicated per product

Nano Composed of nano scale particles or nanotechnology

Third Party Verified Verification by independent certifier approved by HPDC

Preparer Third party preparer, if not self-prepared by manufacturer

Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
