

MONOLITHIC GLASS

by NOVATECH ARCHITECTURAL INC.

HPD UNIQUE IDENTIFIER: 31438556

HPD UNIQUE PRODUCT ID: Not provided.

CLASSIFICATION: 08 81 00 Glass Glazing

PRODUCT TYPE: Float Glass

PRODUCT DESCRIPTION: Monolithic glass by Novatech Architectural Inc., a branch of Novatech Group, is a single glass manufactured from the float process. It may be clear, tinted in the mass, acid-etched, include a low-E or reflective coating and available in various thickness from 3 mm to 19 mm. Various color coatings may be applied on its surface to confer aesthetic properties (Cerafrut, Ceraprint, Tendances or Opacicoat). The glass may also be thermally treated. This HPD covers all possible variations of laminated glass, including mirrors manufactured by Novatech Architectural Inc.

Section 1: Summary

Nested Method / Product Threshold

CONTENT INVENTORY

Inventory Reporting Format	Residuals/Impurities Evaluation	For all contents above the threshold, the manufacturer has:
→ Nested Materials Method	Completed in 6 of 6 Materials	
Threshold Disclosed Per	Explanation(s) provided for Residuals/Impurities?	Characterized Yes
→ Product	Yes	Provided weight and role.
Threshold Level		Screened Yes
→ 1,000 ppm		Provided screening results using HPDC-approved methods.
		Identified No
		Provided name and CAS RN or other identifier.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

Special Conditions applied: [Polymers]

This Health Product Declaration (HPD) discloses hazards associated with all substances present at or above 1000 parts per million (ppm) in the finished product. Monolithic glass by Novatech Architectural Inc. contains special conditions materials, reaction products (coatings) and float glass. Guidelines for reporting Special Conditions materials are still under development by the HPDC. Novatech Architectural Inc. will update the HPD accordingly once these guidelines get published. Known residuals and impurities; have been disclosed at 1,000 ppm. More details about how residuals and impurities were considered available in the appropriate section. Variations in the composition of Laminated glass [glass thickness, coated or uncoated glass, clear glass, or mirror] introduce ranges in the content inventory section. Undisclosed substances are proprietary.

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

COMPLIANCE See Section 3 for additional listings.

VOC emissions: CDPH Standard Method - Not tested

LCA: ISO 14040:2006 Environmental management -- Life cycle assessment

CONSISTENCY WITH OTHER PROGRAMS

Pre-checked for LEED v4 Option 1.

Pre-checked for LEED v4.1 Option 1.

Pre-checked for LEED v5 Human Health 1.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

GLASS		%: 96.0000 - 100.0000	
PRODUCT THRESHOLD: 1000 ppm	RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes	MATERIAL TYPE: Glass	
RESIDUALS AND IMPURITIES NOTES: No residuals or impurities are present in float glass above 1000 ppm.			
OTHER MATERIAL NOTES: Novatech Architectural offers a wide range of float glass (ultraclear, tinted, low-E coating, reflective coating, acid-etched glass, mirror, acid-etched mirror). Those types of glasses are essentially soda-lime glasses. Low-E and reflective coatings are not inventoried since both coatings are way below the reportable threshold. Mirrors have a base and top coat. It should be noted that the top and base coats are presented in tandem under "Mirror Single Coat" for both standard and acid-etched mirror materials. A weight interval is used to cover all product configurations (e.g. with and without laminated glass, coated or uncoated glass, float glass or mirrors,...)			

SODA-LIME SILICATE GLASS				ID: 2446523-50-6
HAZARD DATA SOURCE: Pharos Chemical and Materials Library			HAZARD SCREENING DATE: 2026-09-28 14:24:45	
%: 100.0000 - 100.0000	GreenScreen: NoGS	RC: PreC	NANO: Unknown	SUBSTANCE ROLE: Glass component
HAZARD TYPE	LIST NAME AND SOURCE		WARNINGS	
None found			No warnings found on HPD Priority Hazard Lists	
ADDITIONAL LISTINGS	LIST NAME AND SOURCE		NOTIFICATION	
None found			No listings found on Additional Hazard Lists	

SUBSTANCE NOTES: Soda Lime Float Glass (previously CAS number 65997-17-3) with a new CAS number 2446523-50-6 is made by melting various substances such as silicon dioxide, sodium oxide, calcium oxide, magnesium oxide and trace elements together. The full description of is expressed in weight percentage (Cf. EN 572-1 and EN 572-2). Tinted glasses are similar to clear glass; however, the composition varies slightly. In all cases, clear, tinted or low-iron glass, the product as delivered is 100% Soda Lime Float Glass.

COATING #1		%: 0.0000 - 3.0000	
PRODUCT THRESHOLD: 1000 ppm	RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes	MATERIAL TYPE: Polymeric Material	
RESIDUALS AND IMPURITIES NOTES: No residuals or impurities are known or expected to be present at or above the Content Inventory Threshold.			
OTHER MATERIAL NOTES: Material weight interval used to account for glass with or without coatings. Alternative to coating #2, #3 and #4.			

SILANOL TERMINATED POLYDIMETHYLSILOXANE				ID: 70131-67-8
HAZARD DATA SOURCE: Pharos Chemical and Materials Library			HAZARD SCREENING DATE: 2026-09-28 14:24:46	
%: 64.0000 - 77.0000	GreenScreen: BM-2	RC: None	NANO: No	SUBSTANCE ROLE: Coating
HAZARD TYPE	LIST NAME AND SOURCE		WARNINGS	
EYE	GHS - New Zealand		Eye irritation category 2	
ADDITIONAL LISTINGS	LIST NAME AND SOURCE		NOTIFICATION	

SUBSTANCE NOTES: Identified on the US EPA Safer Chemical Ingredient List. Crosslinked Polydimethylsiloxane. Water-based silicone coating that is fully cured to a tack-free silicone elastomeric film providing opacification in any color to glass and related construction materials. Weight interval used to protect product exact recipe.

AMORPHOUS SILICA

ID: 7631-86-9

HAZARD DATA SOURCE: Pharos Chemical and Materials Library

HAZARD SCREENING DATE: 2026-09-28 14:24:46

MIRROR SINGLE COAT

?: 0.0000 - 2.7300

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

MATERIAL TYPE: Polymeric Material

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities are considered and reported if present at or above product declaration threshold.

OTHER MATERIAL NOTES: Mirrors have a base and top coat. It should be noted that the top and base coats are presented in tandem under "Mirror Single Coat" paint for both standard and acid-etched mirror materials. A weight interval is used to cover all product configurations (e.g. with and without laminated glass, coated or uncoated glass, float glass or mirrors,...).

All substances composing the paint are presented with weight percentage interval to add confidentiality to the composition of the material.

COMPLIANCE NOTES: The Environmental Product Declaration (EPD) is published by CSA Group (EPD registration number: 8939-3810).		

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

-

MANUFACTURER INFORMATION

MANUFACTURER: **NOVATECH ARCHITECTURAL INC.**

ADDRESS: **153, Laurier blvd, Laurier-Station**

Laurier-Station, QC G0S 1N0

COUNTRY: **Canada**

WEBSITE: **www.novatecharchitectural.com**

CONTACT NAME: **Vincent St-Hilaire**

TITLE: **Plant Engineer**

PHONE: **418-728-2023 #3215**

EMAIL: **vincent.st-hilaire@grouphenovatech.com**

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

GHS SDS Globally Harmonized System of Classification and Labeling of Chemicals Safety Data Sheet

Inventory Methods:

Nested Method / Material Threshold Substances listed within each material per threshold indicated per material

Nested Method / Product Threshold Substances listed within each material per threshold indicated per product

Basic Method / Product Threshold Substances listed individually per threshold indicated per product

Nano Composed of nano scale particles or nanotechnology

Third Party Verified Verification by independent certifier approved by HPDC

Preparer Third party preparer, if not self-prepared by manufacturer

Applicable facilities Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
