CLASSIFICATION: 03 60 00 Grouting

PRODUCT DESCRIPTION: Hydroment® Vivid is a rapid curing, high performance, cement grout developed with the scientific breakthroughs of Bostik's HyDrix and Color Suspension Technologies. HyDrix Technology allows Bostik to precisely control the timing and formation of both the chemical and physical matrices of Hydroment® Vivid grout during the curing process. Color Suspension Technology offers ease of installation because it forms a protective matrix around the pigment itself, keeping it evenly suspended during application and clean-up. The grout floats across the tile surface and remains easy to tool, which produces a superior, color consistent grout joint. Hydroment® Vivid exceed the requirements of ANSI 118.7 and contains Bostik's Blockade® Antimicrobial Protection.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.
