

HPD UNIQUE IDENTIFIER: 506064907264

CLASSIFICATION: 10 26 00 Wall and Door Protection

PRODUCT DESCRIPTION: Need waterproofing solutions for floor to wall transitions? The new Stainless Steel Wall Base Cove from Inpro accommodates various types of flooring in commercial applications that require watertight finishes. This stainless steel base is designed to integrate with Continuum™ Wall Protection, Stainless Steel Wall Panels and FRP to create a hygienic, watertight shield for your walls.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- *Basic Inventory method with Product-level threshold.*
- *Nested Material Inventory method with Product-level threshold*
- *Nested Material Inventory method with individual Material-level thresholds*

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

ACCESSORY TYPE: Adhesive
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Urethane adhesive is used to secure the wall base onto the wall while also providing additional waterproofing

Section 5: General Notes

20 Gauge Stainless Steel - Type 304 Stainless Steel - Pre-formed Inside or Outside Corners Available - Available in standard lengths or custom manufactured per field conditions - Offers superior clean-ability, moisture protection, and durability without the use of membranes, primers and water barriers - Promotes hygienic environments for commercial spaces - Top channel receives adjacent wall finishes, reducing need for precise cuts; saving installation, remodel and repair costs - Ideal for retrofit conditions where moisture prevention and cleanliness is critical

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.
