

HPD UNIQUE IDENTIFIER: 413588227072

CLASSIFICATION: 09 84 00 Acoustic Room Components

PRODUCT DESCRIPTION: The Folded Poetry Tile Collection by Eliza Redmann is a multi-dimensional symbol of her experience recovering from traumatic brain injury. Inspired by her altered experience of reality post brain injury, the collection's Diad, Hexad, and Triad designs feature directionally scattered surfaces that not only disperse and absorb sound waves but also visually mimic disorientation. These designs can be arranged either individually or in combination to create limitless customizable patterns, meeting the needs of a variety of spatial applications. Crafted from PET, Folded Poetry addresses both aesthetic and acoustic challenges by reducing auditory overwhelm while offering a dynamic, multi-dimensional reflection of Eliza's recovery journey, where art and functionality converge.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

Designed for the Environment: Easy to disassemble and separate into the appropriate recycling systems, Ecoustic® SC can be recycled
- Low VOC + Oeko Tex Certification: The low VOC and Oeko Tex certified Ecoustic® SC is non-toxic, non-irritant and non-allergenic

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.
