

HPD UNIQUE IDENTIFIER: 1346939128832

CLASSIFICATION: 09 53 00 Acoustical Ceiling Suspension Assemblies

PRODUCT DESCRIPTION: Ovation panels are perfect for auditoriums, lecture halls, and performing arts centers. Ovation is designed for large spaces that require improved sound directivity, strength, and timing of reflections from the ceiling area. Ovation panels provide flexibility in acoustic and aesthetic design. Panel radiuses and dimensions can be configured to optimize acoustic performance. Panel shapes and finishes allow designers to integrate Ovation into a variety of décors. Ovation panels are ceiling-suspended with attachment points on steel framing. The panels are shipped flat and are bowed in the field. The degree of the radius curve is adjusted in the field using turnbuckle and cable suspension to meet the architect's or acoustical consultant's specifications.
