

HPD UNIQUE IDENTIFIER: 1691327488

CLASSIFICATION: 07 42 00 Wall Panels

PRODUCT DESCRIPTION: American Metalcraft Aluminum Plate Wall Panel Systems are single-skinned, concealed fastened, interlocking, dry-joint, and pressure equalized rainscreen systems. The joint design allows air pressure to equalize between the outside surface and in the inside cavity. The system can be installed either vertically or horizontally, and our tab slot system allows for a brick or straight pattern. Panels have a standard depth of 1.25" and 1/2" to 5/8" wide joints. Panels can be flush, tapered, or recessed, and can be installed on the interior or exterior of the building. This HPD covers wall panels finished with Fluropon Pure PVDF Coating System in all standard colors.

INVENTORY AND SCREENING NOTES:

This Health Product Declaration (HPD) was completed in accordance with the HPD Standard version 2.3, and discloses hazards associated with all substances present at or above 1000 parts per million (ppm) in the finished product, along with the role and percent weight.

*Form-Specific Hazard: This substance's GreenScreen Benchmark or List Translator score and the applicable hazards are related to particulate inhalation, which is expected to occur only during manufacture, installation, maintenance, or demolition, due to activities such as sawing, sanding, grinding, or intensive cleaning. For this reason, this score is intentionally omitted from the "Contents highest concern" line above. See HPDC's Special Conditions policy for more information.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE See Section 3 for additional listings.

VOC emissions: CDPH Standard Method - Not tested

CONSISTENCY WITH OTHER PROGRAMS

Pre-checked for LEED v4 Option 1.

Pre-checked for LEED v4.1 Option 1.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

ALUMINUM PLATE WALL PANELS WITH FLUROPON PURE FINISH

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: No residuals or impurities are known or expected to be present at or above the Content Inventory Threshold indicated that have a GS score of BM-1, LT-1, LT-P1 or NoGS based on information provided in supplier disclosures and as predicted by process chemistry (Pharos CML).

OTHER PRODUCT NOTES: Percent by weight of substances reported as range to account for the various collections and colors available. Fluropon Pure coating must be specifically called out in specification, quoting and Purchase Order to American Metalcraft, Inc. Otherwise standard PVDF coating will be applied to American Metalcraft products.

Since 1986, American Metalcraft Inc. continues to lead the way in quality, innovation and design. We are proud of our long term team members that bring excellence, top-notch skills and creative solutions to each and every project. Our expertise is unmatched – from design-concept to production, our team is there to assist you every step of the way. Because we manufacture a variety of products in addition to wall panels, you can have your sunshades, column covers and brake metal fabricated alongside the rest of your panel project and painted in the same facility. With our sister company, Finishing Dynamics, as part of our in-house production, we control the process from start to finish - literally. Customers aren't relegated to standard colors and can choose from almost limitless color options including micas, two-tones and splatter finishes. Unlike pre-coat coil, there's no minimum order to get a custom color. Post-fabrication painting offers the best protection of edges, covering welds and corners like no other process. We are proud to be a WBE certified company, adding diversity to your supply chain as a woman owned business.
