

HPD UNIQUE IDENTIFIER: 1818651648

CLASSIFICATION: 05 10 00 Structural Metal Framing

PRODUCT DESCRIPTION: Sure-Board® has a gypsum board facing that integrates with standard gypsum board for a smooth uninterrupted finish. Sure-Board® requires no leveling and is ready for finishes. Sure-Board® lays flat on the stud surface with no sagging, leaving no surface irregularities. When Sure-Board® is used, there is no need for additional structural sheathing or tension strap braces, requiring costly and laborious pre and post tensioning. CEMCO's Sure-Board products are manufactured to the strict tolerances set forth by the 2018, 2015, 2012, and 2009 IBC, and verified by IAPMO UER 126. Sure-Board® Series 200 Structural Panels consist of 1/2", 5/8" or 3/4" (12.7, 15.9 or 19.1 mm) thick square or tapered-edge Type X or Type C fire rated gypsum wallboard or water resistant core sheathing complying with ASTM C 1369, as well as glassmat gypsum substrate complying with ASTM C 1177, and fiber reinforced gypsum panels complying with ASTM C 1278; laminated with water soluble adhesive to steel sheet. Steel thicknesses available: 27 mil or 33 mil with G40, G60 or G90 coating; 43 mil, 54 mil, or 68 mil with G60 or G90 coating. This HPD covers Sure-Board® Series 200 and Sure-Board® Series 200B products using paper-faced gypsum board.

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

RESIDUALS AND IMPURITIES NOTES: Residuals or impurities with the potential to be present at or above the Content Inventory Threshold indicated that return a GS score of BM-1, LT-1, LT-P1 or NoGS have been disclosed, based on information provided in supplier documentation and as predicted by process chemistry (Pharos CML).

OTHER MATERIAL NOTES: Sure-Board® Series 200/200B Structural Panels can be manufactured with gypsum wallboard from various suppliers. The material ingredients included in this HPD are representative of the most commonly requested wallboards. Please contact the manufacturer if more information is required. An industry-wide Environmental Product Declaration (Type III EPD) for "Typical (5/8" Type X) North American Gypsum Boards" is available at: <https://gypsum.org/download/14311/>

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and
