INVENTORY AND SCREENING NOTES:	
All substances at or above the reporting threshold have been identified and screened. Some substances may be reported as ranges to account for product construction variation and proprietary formulation details.	
PFAS DETAILS:	
This product does not contain intentionally added PFAS, but it is unknown if PFAS is contained in materials or substances from suppliers.

	No pre-checks completed or disclosed.

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: Yes

RESIDUALS AND IMPURITIES NOTES: The manufacturer identified no unreported residuals or impurities contained in the product.

OTHER PRODUCT NOTES: All substances at or above the threshold have been identified and screened by the manufacturer. Some percentage of substances that make up the product have been provided as a range to account for variations in product construction and to further protect proprietary formulation details. Substances that are considered proprietary by their manufacturers are not to be disclosed by name and ID to the public on this current HPD.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
